Communication Plan

Date	1 November 2026
Team ID	N/A – Individual Project
Project Name	Global Fuel Prices and Taxation Trends: A Comprehensive Global Performance Intelligence Report
Maximum Marks	1 Mark

Communication Plan

A clear communication rhythm keeps the project organized, even when the work is completed individually. For this project, updates are managed through personal progress reviews and project documentation, with the published Tableau Story serving as the main review artifact.

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Progress check-in	Daily during active work	Personal task log / checklist	Ansh Sharma	Review completed tasks and identify the next priority.
2	Progress update	Weekly	Project notes and Tableau Public link	Student; academic guide when applicable	Summarize dashboard progress and pending work.
3	Issue / data review	As needed	Tableau worksheet checks; CSV review	Ansh Sharma	Resolve field, aggregation, filter or visualization issues.
4	Stakeholder / guide review	At milestone points	Tableau Public Story and discussion	Student and guide/evaluator, if scheduled	Collect feedback on clarity, correctness and presentation.
5	Final demo rehearsal	Before submission/demo	Browser walkthrough of Tableau Story	Ansh Sharma	Check story sequence, filters, labels and presentation flow.
6	Final communication	At submission	SkillWallet / submission portal	Student and evaluator	Share final documents and published project link.

Communication Challenges & Resolutions

S.No	Challenge Faced	Resolution / Action Taken
1	Individual project means there is no separate team communication channel.	Use a task checklist and maintain one consistent project record; involve the guide/evaluator at review milestones where applicable.
2	Large datasets and multiple chart types can make progress difficult to summarize.	Group work into data, KPI, map, trend, tax and Story milestones; review each worksheet against its business question.
3	A published dashboard may be viewed differently across screen sizes or browsers.	Rehearse the published Tableau Public Story in a browser and check titles, labels, filters and navigation before the demo.

Project communication note: This is the communication plan for an individual project. It describes a practical process and does not claim that meetings or stakeholder reviews occurred unless they were actually held.
