Demo Flow Summary

Step	Activity	Notes
1	**Introduction & Problem Statement**	State the problem: scattered global fuel and tax data is difficult to compare manually.
2	**Solution Overview**	Explain the CSV-to-Tableau workflow and the dashboard's KPI, map, trend and tax views.
3	**Live Feature Demonstration**	Navigate the published Story, explain the charts and use available country/year filters.
4	**Q&A; Session**	Answer questions on data, AVG calculations, visualization choices and future improvements.

Presenter note: As this is an individual project, Ansh Sharma is listed as the presenter for all sections. Adjust the duration if the evaluator specifies a different time limit.
